Other symptoms or findings not listed above:

Which are your top 3 symptoms from the list and why?

1. _____
2. _____
3. _____

5. Current Status:

What is your current ability to function, including work and athletics?

Current height: _____ Current weight: _____

Have you lost a lot of weight due to your condition and/or require a feeding tube? If yes, please explain, as well as state your "healthy" weight vs. your weight now.

Can you describe the general diet that you follow? How often do you eat/drink water?

Do you have a central line and/or require regular IVs? If yes, please explain the reason:

6. More about you as a person and as a patient:

How would you describe yourself and the effect your condition has had on your life (consider aspects of your life such as your ability to perform at school/work/sports, family dynamics, personality changes, financial stress, role of faith/spirituality in your life, etc.)?

Testing and treatment at our center will likely require travel. Flying is not permitted the same day as treatment and will require an overnight stay and someone to accompany you during the visit. In some severe cases, it may require living in SW Florida during the first 2-3 months of the treatment series for weekly or bi-weekly check-ins/marker testing in between any Prolotherapy and/or Chiropractic care. Can you please explain if this is feasible for you in the event that your case is deemed severe enough that you would be required to stay nearby?

Every patient needs a good support team. We would like to better understand yours and the role they will play in helping you get better. Please include a little about your support system (spouse, mother, sibling, friend, etc.) and the role they play in your healthcare and if they would be the ones traveling/staying with you:

Please explain the current specialists/doctors you are under and the level of care you currently receive (Do you see a Neurologist, PCP, GI specialist, etc? Medication refills, etc.):

Are you currently involved in a workman's comp or other legal case related to your condition or the original injury? If so, please explain:

7. Health goals and treatment knowledge:

When you get right down to it, what do you think the cause of your symptoms and conditions stem from that we could potentially help you fix at Caring Medical? Please explain:

What are your top 3 functional goals that you would like us to help you achieve?

1. _____

2. _____

3. _____

How would you rate your knowledge of Prolotherapy, curve correction, digital motion x-ray, and other testing/treatments at our center?

- Very familiar (I've watched almost every Caring Medical video and know all about Prolotherapy, DMX, and the vagus nerve!)
- Somewhat familiar (I get the gist and have seen a few videos and/or read a couple of articles.)
- Not too familiar (I was referred here as a "Hail Mary" pass.)
- Never heard of Caring Medical or Dr. Hauser (I just like filling out very long health forms online.)

Do you have any concerns/worries that you would like us to know regarding your health or potential testing and treatment that may be recommended for your case whether here or elsewhere?

What are your expectations of Caring Medical and/or your next medical specialist as it relates to the type of care you are looking to receive?
